

# Clarifying Questions

## Critical Priority Questions

ID	Questions
IR-01	<ul style="list-style-type: none"><li>• Is categorization mandatory for all manual entries, or can users skip it?</li><li>• If GS1 integration succeeds, does categorization become automatic or remain manual?</li><li>• Can the app function with "uncategorized" items in the interim?</li><li>• What is the business value of categorization: analytics, store mapping, or user organization?</li></ul>
IR-05	<ul style="list-style-type: none"><li>• Does "registered contacts" mean SMS, email, or both?</li><li>• Is "time-limited" referring to OTP expiration (minutes) or token validity (hours)?</li><li>• What is the actual user flow for password reset? Active screen OTP or an email reset link?</li></ul>
IR-08	<ul style="list-style-type: none"><li>• Is manual entry (BR-03) an acceptable fallback if camera integration fails?</li><li>• If scanning is truly Essential, should TR-07 be elevated to Essential?</li><li>• What is the minimum viable barcode format: 1D only, or must include 2D/QR?</li><li>• Are there budget/licensing constraints preventing camera integration from being Essential?</li></ul>

## High Priority Questions

ID	Questions
IR-09	<ul style="list-style-type: none"><li>• Is there existing GS1 licensing or partnership?</li><li>• Does "Acceptable" precedence mean "nice to have if free" or "required if technically possible"?</li><li>• What product coverage is expected: Singapore-only Stock Keeping Units (SKUs) or global products?</li></ul>
IR-10	<ul style="list-style-type: none"><li>• Is offline mode read-only viewing, or must edits be possible?</li><li>• If edits are allowed, how should conflicts be resolved: last-write-wins, manual merge, or server authority?</li><li>• What is the maximum offline duration before sync is mandatory: hours, days, or unlimited?</li></ul>

## Medium Priority Questions

ID	Questions
IR-02	<ul style="list-style-type: none"> <li>• Is 72 hours a minimum, maximum, or fixed window?</li> <li>• Should different categories have different thresholds (e.g., dairy = 48 hours, canned = 2 weeks)?</li> <li>• Can users customize alert timing per item or category?</li> <li>• What constitutes "expiry": best-before, use-by, or sell-by dates?</li> </ul>
IR-03	<ul style="list-style-type: none"> <li>• If offline, show last-known price, hide prices, or show estimated prices?</li> <li>• Is the price total in the shopping list a strict budget tool or an approximate guide?</li> <li>• Should price sync be user-triggered (pull-to-refresh) or strictly background?</li> <li>• What happens if price sync fails for 48+ hours: stale data warning, or block list generation?</li> </ul>
IR-04	<ul style="list-style-type: none"> <li>• Is BR-09 required for MVP or future release?</li> <li>• If required, what algorithm defines "High Risk"?</li> </ul>
IR-11	<ul style="list-style-type: none"> <li>• Who is the primary business stakeholder responsible for managing the "master product catalogue" mentioned in TR-11?</li> <li>• Who will be responsible for the long-term hosting and security patching of this web portal after the initial handover?</li> </ul>
